It was built using data from state and federal databases, public records requests to local police departments, and media reports. While police data is never perfect, and there are additional indicators that still need to be tracked, the Police Scorecard is designed to provide insight into many important issues in policing. Police Scorecard is an independent 501(c)(3) organization, learn more about our team here. If you have feedback, questions about the project, or need support with an advocacy campaign, contact our Founder, Samuel Sinyangwe. methodology Source Data Use this Scorecard to identify issues within police departments that require the most urgent interventions and hold officials accountable for implementing solutions. For example, cities with higher rates of low level arrests could benefit most from solutions that create alternatives to policing and arrest for these offenses. In cities where police make fewer arrests overall but use more force when making arrests, communities could benefit significantly from policies designed to hold police accountable for excessive force. And cities where complaints of police misconduct are rarely ruled in favor of civilians could benefit from creating an oversight structure to independently investigate these complaints. Contact your Mayor and Police Chief, share your scorecard with them and urge them to enact policies to address the issues you've identified: Advocacy Tip. This state has a Police Bill of Rights law. These laws make it harder to hold police accountable. Call state legislators and tell them to repeal this law. On Wednesday at about 3:45 pm, four juvenile suspects wearing ski masks did a "grab and run" from Dick's Sporting Goods in Daly City. A witness described the suspect vehicle and the suspects. One of our Officers recognized the description of the suspect vehicle and the suspects to be the same as the ones that did the same crime on Monday at Dick's Sporting Goods. Shortly after, the Officer found the suspect vehicle driving toward San Francisco. Daly City Officers followed the vehicle and notified CHP and SFPD. CHP tried to stop the vehicle on EB I-80 near 7th St. and the vehicle fled. After a short pursuit, the vehicle became disabled, and four suspects attempted to run away. Three suspects were immediately taken into custody by CHP and the fourth was located shortly after in a nearby parking garage by SFPD. Nearly two thousand dollars in merchandise was recovered. The suspect vehicle was determined to be a stolen vehicle. The four juvenile suspects are facing multiple felony charges. Thanks to CHP and SFPD for the assist! Thank 80 Reply 19
